### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the use of separate source material for halogen and carbon to form a silicate glass on a substrate that is carbon and halogen doped.

Wang et al., U.S. Patent No. 6,511,923 discloses a deposition of stable dielectric films. As shown in Figure 2, a substrate 10 is provided. A carbon and halogen doped silicate glass dielectric layer is formed on the substrate.

Baum et al., U.S. Patent No. 68698638 discloses source reagent compositions for CVD formation of gate dielectrics.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Non-elected claims 19-29 have been canceled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy K. Potter whose telephone number is 571 272 1842. The examiner can normally be reached on M-F.
